**IRRIGATION & CAD (PW:REFORMS) DEPARTMENT**

**G.O.Ms No. 19**

**Dated:- 08-03-2010.**

Read the following:-

1. G.O.Ms.No.367, Irrigation & Power (PR.III) Department dated 11.9.1980.
2. From the Engineer-in-Chief (Irrigation) Letter.No.ENC (I)/DCE-IV/OT M5 /S2 /0497/07, dated 12.3.2008.
3. From the Chief Engineer,IS & WR, Hyderabad, Lr.No.RCWR/DD (K)/DEE1 /7527/89, Vol.II, dated:03-09-2007 and 28.4.2008.
4. From the Engineer-in-Chief (Irrigation) Letter.No.ENC (I)/DCE-IV/OT M5 /S1 /0497/07, dated 07.08.2008.
5. From the Engineer-in-Chief (Irrigation) Letter.No.ENC (I)/DCE-IV/OT M5 /S2 /0497/07, dated 06.09.2008.

**ORDER:-**

In the G.O first read above, permission was accorded to M/s Deccan Cements Limited, Hyderabad for drawal of 50,000 gallons of water from River Krishna near Mahankaligudem village for operating 200 TPD Mini Cement Unit at Mahankaligudem (V) in the Huzurnagar Taluk of Nalgonda District with certain terms and conditions as specified therein.

2. In the refernces 2<sup>nd</sup>, 4<sup>th</sup> and 5<sup>th</sup> read above the Engineer-in-Chief (Irrigation) has stated that M/s Deccan Cements Limited, Hyderabad is presently producing 0.6 million tones cement per annum in Nalgonda District using the water from Krishna River near Mahankaligudem Village; and they are in the process of expanding the Cement Plant to 2.3 million tones per annum, and also a 15 MW Thermal Power Plant to generate power for captive use and requested to accord permission for the drawal of 5,00,000 gallons of water per day (30 Mcft Per Annum) from River Krishna at Ravipahad (V) Neruducherla (M), Nalgonda District taking in to account the water required amounting to 3,56,578 Gallons/day for construction of 15 M.W captive power plant and the ENC (Irrigation) has also informed that the requirement of M/s Deccan Cements Limited of 29 Mcft annually can be met from the savings of total allocation of 181.20 TMC in Krishna Delta of which a provision of 15.30 TMC has been made for greenery development, navigation purpose, flooding the areas where salinity is prevailing and drinking / domestic water supply, the requirement of the firm 0.029 TMC can be met from out of the savings in the above provisions.

3. In the reference 3<sup>rd</sup> read above, the Chief Engineer, Inter State and Water Resources, Hyderabad who was consulted in the matter has opined that no new schemes based on surplus water can be taken up and requested to examine the proposed annual utilization of 29 Mcft by way of making savings from the allocations made to the Krishna Delta by the Bachawat Tribunal to a tune of 181.2 TMC, as the requirement of the Industry is very meagre.

4. In the circumstances reported by the Engineer-in-Chief (Irrigation) and C.E, IS & WR in their letters 2<sup>nd</sup>, 3<sup>rd</sup>, 4<sup>th</sup> and 5<sup>th</sup> read above and the Government after careful consideration hereby accored permission for drawl of 5,00,000 gallons of water per day (30 mcft., per annum) to M/s Deccan Cements Limited from the out of savings of total allocation of Krishna Delta near Mahankaligudem (V) at Ravipahad, Neruducherla (M) Nalgonda District at the rates specified in G.O.Ms No.39, Irrigation & CAD Dept, Dt:2-4-2002, for a period of 5 years from the date of Agreement with usual terms as stipulated in G.O.Ms.No.367, Irrigation & Power (Irrgn.III) Department dated 11.9.1980 and also the following conditions:

Cont....P2

//2//

1. The firm / industry will be allowed to lift from Krishna River only when there are adequate supplies in the river downstream on Nagarjuna Sagar Dam for sufficient need of the Krishna Delta system, and the Irrigation Department do not have any obligation to supply water continuously to the firm.
  2. The location and system of drawal of water from Krishna River and equipment and the structures proposed are to be shown and executed under supervision of Irrigation Department.
  3. The cost of protection works to the river and equipment and the structure proposed are to be born by the beneficiary / firm only. Necessary protection arrangements to the banks have to be made after installation arrangements are completed.
  4. Water meter or suitable measuring devices shall be installed by the beneficiary / firm to measure the water consumed and shall be made available to the Executive Engineer, Krishna Central Division, Vijayawada or authorized representative at all times for inspection.
  5. The firm / beneficiary shall pay water tax under the existing rates and at the rates fixed Government from time to time.
  6. The permission now accorded is only on temporary basis depending upon the excess surplus discharge at Nagarjuna Sagar Dam at Prakasam Barrage respectively. The water drawn from the river should be utilized for the purpose for which permission is accorded and any misuse in this regard will entail cancellation of the permission without any notice.
  7. The Department reserves the right to cancel the permission accorded for lifting of water from Krishna River without assigning any reasons thereof.
  8. The firm / beneficiary shall deposit an amount of Rs.68,500/- (Rupees sixty eight thousand and five hundred only) in favour of Executive Engineer, K.C.Division, Vijayawada well in advance before commencement of work as security deposit and at the rates fixed by the department towards water charges at the time of agreement.
5. The Engineer-in-Chief (Irrigation) shall take necessary action accordingly in the matter.
